## Installing your 'Digital Signature Certificate' & eToken Driver

Take the USB eTOKEN and Insert it in the USB Port as shown:	Open the CD Drive and Insert the Manual CD	Double-Click On the icon 'My Computer' on your Desktop.
←←←		

1. Click on the CD Drive to view its contents.
2. Double Click on Folder **'Manual for Class III'**
3. Double Click on Folder **'Aladdin E-Token Driver'**
4. Double Click on **'eToken_PKIClient51.msi'** to install the software on your PC.
5. Close all the open folders and Restart your machine

Installing Root Certificates

Once the Machine Restarts

1. Click on the CD Drive to view its contents.
2. Double Click the folder named **'Class II / Class III ROOTS'** to view its contents
3. Double Click on all the files one at a time and install it on your system.
4. After all the root certificates are installed
   a. Goto **Internet Explorer**
   b. Click On Tools → Internet Options → Content → Certificates
   c. If your name appears in the box, it means your certificate is installed & token are installed & working properly.

You can start using your Digital Signature Certificate for e-tendering / e-filing.

If you are still facing any problems, kindly contact us.
